

UKRAINE MEDICAL RELIEF MEDICAL SUPPLIES URGENTLY NEEDED

45 MILLION PEOPLE AND 1.5 MILLION REFUGEES NEED YOUR HELP NOW !

Ten days ago Russia invaded Ukraine in order to absorb the country into Russia. The Russian military is attacking with troops and is presently bombing civilian areas with 1000 lb bombs to crush the government and population into submission. The Ukrainian Department of Health has put out pleas for medical supplies and medications to all medical relief nonprofit Organizations. **Medical Teams Worldwide is obtaining medical supplies donated from local hospitals and has the ability to purchase needed supplies and medications at wholesale prices.** A sterile laceration repair kit only costs \$15, 500 antibiotic tablets cost about \$70, and self administered tourniquets for wounded soldiers cost \$10 (normally \$30).

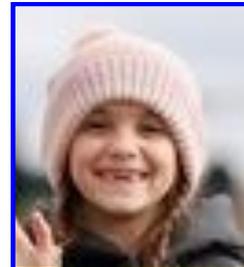

Medical Teams Worldwide has a goal of raising \$100,000 for Ukrainian Medical Relief. Due to our wholesale purchasing ability donations are magnified at least 2 fold.
